

SRU/Z39.50 Gateway. If it is intended to provide access to a catalogue or database using the SRU/Z39.50 gateway please provide as much of the following information as possible. The entries in bold are essential for setting up a gateway.

Catalogue/database title	
Brief description	
URL for further information about your Z39.50 service	
Server address	
Port number	
User ID (if necessary)	
Password	
Z39.50 database name	
Preferred Record Syntax	
If the syntax is XML, which schema is used for the records ?.	
If the syntax is a MARC syntax, but the use of tags is non-standard, please can you give details of usage or a crosswalk to the EL Profile.	
Character set used in the records	
Which software provides the Z39.50 server.	
Which version of Z39.50	Version2 , Version 3 ?
If the records contain identifiers that can be used to access related digital objects or services through a URL, please can you provide details of the base URL and parameters.	

Please confirm the bib.1 attributes supported or give alternatives :

<i>Use Attributes</i>			<i>Other Attributes</i>	
<i>Name</i>	<i>Attribute</i>	<i>Alternative</i>	<i>Attribute</i>	<i>Values</i>
Any	1016		Relation	1,2,3,4,5,6
Title	4			101
Author	1003		Position	1,2,3
Subject	1021		Structure	1,2
Type	1031		Truncation	1
Format	1034		Completeness	3
Language	54			
Identifier	1007			
ISBN	7			
Date	30			

Example :

Catalogue/database title	British Library Sound Archive Catalogue
Brief description	The catalogue includes entries for almost two-and-a-half million recordings held in the Sound Archive and is updated daily. It is one of the largest catalogues of its kind anywhere in the world, covering both published and unpublished recordings in all genres from pop, jazz, classical and world music, to oral history, drama and literature, dialect, language and wildlife sounds.
URL for further information about your Z39.50 service	http://www.bl.uk/catalogues/sound.html
Server address	pipper.bl.uk
Port number	2222
User ID (if necessary)	Not required
Password	
Z39.50 database name	ZSERVER
Preferred Record Syntax	MARC21
If the syntax is XML, which schema is used for the records ?.	
If the syntax is a MARC syntax, but the use of tags is non-standard, please can you give details of usage or a crosswalk to the EL Profile. Uses local format and requires a bespoke crosswalk. Refer to documentation supplied by Sound Archive.	
Character set used in the records	Latin1
Which software provides the Z39.50 server.	Sirsi Unicorn
Which version of Z39.50	<u>Version2</u> , Version 3 ?
If the records contain identifiers that can be used to access related digital objects or services through a URL, please can you provide details of the base URL and parameters. Record identifiers in the 001 field can be used to retrieve the catalogue record from the Catalogue System with this URL : http://cadensa.bl.uk/uhtbin/cgisirsi/record.cgi?id=
